Allowable Subject Matter

Claims 1-2, 4, 6-11, 13-22, 24, 26-42 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims are patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth in claims 1, 13, 21 and 31, including the all the structural elements recited in the claims above, and the limitation of the reel and drive cone units mounted and freely rotatable to the drive shaft; and a gear mechanism mounted and driven by the drive shaft, wherein the gear mechanism including a shift member configured to pivot to a first position to engage and drive the reel unit as the drive shaft moves in a first rotational direction and to pivot to a second position to engage and drive the drive cone unit as the drive shaft moves in a second rotational direction. The prior art of record has a floppy clutch that can engage two separate reels, however, it lacks the reel and drive cone units that can freely rotate about the same rotatable drive shaft, and be able pivot a shift member from a first position to a second position as the rotational direction changes from a first rotational direction to a second rotational direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SANG KIM whose telephone number is 571-272-6947.
